PROFESSIONAL SUMMARY

Computer Science graduate and MERN Stack developer with hands-on experience building responsive web applications and exposure to frontend development, Java full-stack concepts and business intelligence tools through internships and training. Skilled in React.js, JavaScript, TypeScript, Node.js, Express.js, MongoDB and REST API integration. Interested in supporting aspiring developers through clear explanations of programming concepts, beginner-friendly coding guidance, debugging assistance and project-based learning. Comfortable communicating technical concepts in Tamil.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Java (Fundamentals), SQL

Frontend Development: React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, React Router, Responsive UI, State Management

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Microsoft SQL Server

Tools & Platforms: Git, GitHub, Vercel, Postman, Vite, Google Cloud Platform, Looker BI

Mentoring & Communication: Technical Concept Explanation, Beginner-Friendly Communication, Debugging Support, Project-Based Guidance, Tamil Communication

INTERNSHIP EXPERIENCE

Frontend Web Development Intern | Unified Mentor | Gurugram **January 10, 2025 – February 10, 2025**

- Developed responsive UI components using HTML, CSS and JavaScript, focusing on reusable structures and cross-device usability.

Java Full Stack Development Intern | Divith Techno Solutions | Bengaluru **January 6, 2025 – April 16, 2025**

- Received introductory training on Java full-stack development concepts, software development life cycle, application architecture and backend technologies.
- Learned the purpose and usage of full-stack technologies and gained an understanding of application development workflows.

Looker BI Intern | Vaamadeva Techno Solutions | Bengaluru **May 2024 – July 2024**

- Received training in SQL concepts, including database queries and their usage with Microsoft SQL Server.
- Learned how to execute SQL commands in Microsoft SQL Server and gained introductory exposure to accessing Google Cloud Platform and Looker BI.

PROJECTS

FindIt | React, TypeScript, Vite, Tailwind CSS, React Router, Zod
Live Demo: https://findit-sepia-two.vercel.app/ | **GitHub:** https://github.com/VigneshKumar2711/FindIt

- Built a lost-and-found platform featuring protected routes, report submission workflows, admin activity tracking and browser-based data persistence.

SchemeSaathi | React, TypeScript, Vite, Tailwind CSS, React Hook Form, Zod
Live Demo: https://schemesaathi-smoky.vercel.app/ | **GitHub:** https://github.com/VigneshKumar2711/SchemeSaathi

- Developed an AI-assisted government scheme discovery application with eligibility data collection and scheme matching based on user profile details.

FinGuard AI | React, Vite, Python, FastAPI, Exasol SQL
Live Demo: https://finguard-ai-plum.vercel.app/ | **GitHub:** https://github.com/VigneshKumar2711/FinGuard-AI

- Developed a financial transaction monitoring prototype featuring a dashboard for transaction summaries, risk classification and potential fraud detection using a React frontend, FastAPI backend and Exasol SQL.

EDUCATION & TRAINING

B.Sc. Computer Science — Vijayam Science and Arts Degree College | 2025 | CGPA: 8.90/10

12th Standard (MEC) — Sri Chaitanya Junior College | 93%

10th Standard (SSC) — Little Angels English Medium High School | 95%

MERN Full Stack Development — Error Makes Clever Academy

AWARDS & ACHIEVEMENTS

- Secured 2nd Rank in B.Sc. Computer Science and received a Merit Certificate for academic performance.
- Awarded a Silver Medal for academic excellence in B.Sc. Computer Science.
- Received the Best Student of the Year Award (2017–2018) from Life Insurance Corporation of India (LIC).
